Policy Statement

ADR Carriers Limited is committed to reducing energy consumption, improving energy efficiency, and promoting the use of renewable energy sources. Effective energy management is a critical component of our commitment to sustainability, environmental stewardship, and cost control.

Purpose

This policy aims to:

1. Optimize energy use across all operations to minimize environmental impact and reduce greenhouse gas emissions.
 2. Ensure compliance with energy-related legislation and industry standards.
 3. Promote a culture of energy efficiency among employees and stakeholders.
-

Scope

This policy applies to all operations, facilities, vehicles, and equipment used by ADR Carriers Limited, as well as the activities of employees, contractors, and suppliers.

Key Commitments

1. **Energy Efficiency**
 - Identify and implement energy-efficient practices in all areas of operation, including transportation, facilities, and equipment.
 - Use energy-efficient technology and prioritize energy-saving upgrades in all new and existing assets.
2. **Renewable Energy**
 - Transition to renewable energy sources where feasible, such as solar, wind, or low-carbon fuels.
 - Reduce reliance on non-renewable energy by exploring and investing in innovative energy solutions.
3. **Energy Monitoring and Reporting**

- Measure and monitor energy consumption regularly to identify trends and opportunities for improvement.
 - Set energy performance indicators (EPIs) and track progress toward energy reduction targets.
- 4. Employee Engagement and Training**
- Provide training and resources to employees to encourage energy-conscious behavior and practices.
 - Involve employees in energy-saving initiatives and recognize contributions to energy efficiency goals.
- 5. Sustainable Transportation**
- Optimize fleet operations through route planning and vehicle maintenance to reduce fuel consumption.
 - Transition to energy-efficient or low-emission vehicles where possible.
- 6. Supply Chain Collaboration**
- Work with suppliers and partners to promote energy-efficient practices throughout the supply chain.
- 7. Continuous Improvement**
- Regularly review and enhance energy management practices to align with emerging technologies and industry best practices.
-

Responsibilities

Management

- Provide leadership and resources to implement this policy effectively.
- Monitor compliance and ensure alignment with organizational energy targets.

Employees

- Adopt energy-efficient practices in their roles.
- Report energy waste or inefficiencies to management.

Suppliers and Contractors

- Align with ADR Carriers Limited's energy management principles and collaborate on energy-saving initiatives.
-

Compliance

ADR Carriers Limited is committed to complying with all relevant energy legislation, regulations, and standards, including those related to energy efficiency and renewable energy adoption.

Monitoring and Review

This policy will be reviewed annually to ensure its relevance, effectiveness, and alignment with the latest energy management standards. Energy performance will be evaluated using metrics such as energy intensity, cost savings, and GHG emission reductions.
